The Challenge

Calling all book nerds (and culture critics of any type): our latest guide challenges you to make an app that collects and shares original reviews of your favorite-or most detested- books.

We were once again inspired by our friends at [YR Media](#), who reported earlier this year on an intriguing subculture: young people on YouTube who make bootleg audiobooks, some with huge followings. Cool, right? But is it legal...? Check out [YR's story](#) to find out.

And while you're at it, create your very own mobile platform for reviews -yours and your friends'- so that next time you're in the market for a book, you'll know just which titles to pick...and which to skip.
